Student Name	Enrollment Number
AMEYA KAWADE	2200560112
MANTHAN MARATHE	2200560091
PRAMOD VAIDYA	2200560066
RUSHIKESH MADDEWAD	2200560119
SHRINIWAS KORE	2200560129
OM KADAM	2200560126
SANSKAR UBALE	2200560128

# Training Overview

During our intensive 6-week training program, we spent the initial 4 weeks spent learning web development skills. In the final 2 weeks, our team collaborated closely to analyze requirements and transform them into a fully functional product.

# Learnings & Growth

- Technical Skills

HTML - Hyper Text Markup Language

CSS - Cascading Style Sheet

JavaScript - Client Side Scripting

- Soft Skills

Communication

Teamwork

Problem Solving

# Our Project

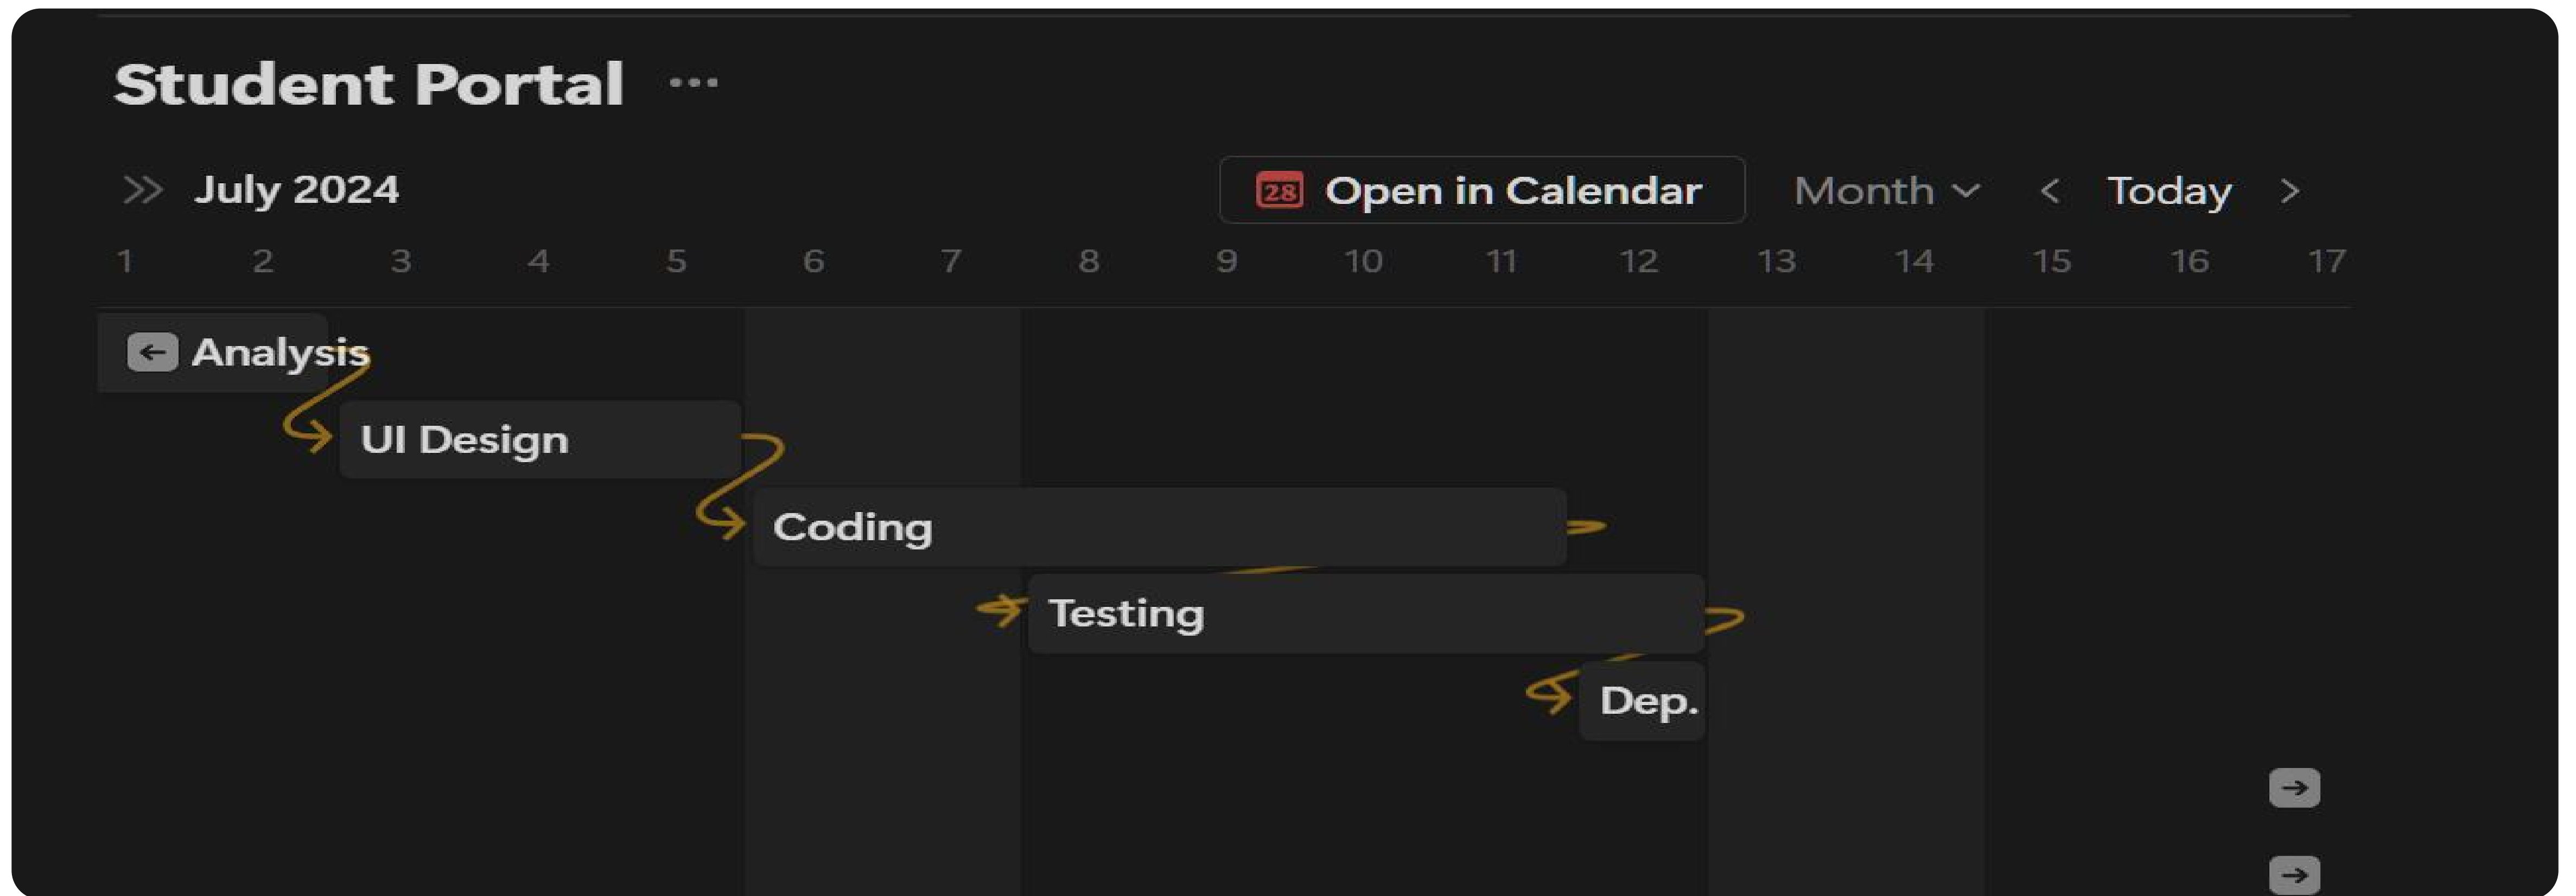

# Project Overview

## Brief Summary →

A student portal includes a dashboard with home page displaying courses, deadlines & announcements. My courses page for courses, assignments page for submitting assignment, progress page for checking progress , profile & resources page, message & support page for technical help.

Deadline - July 12 , 2024

## Project Phases

Overall The project was divided into 5 phases - Analysis of Requirements, UI Design, Coding & Testing , Deployment. The further slides contains the brief information about it.

# Our roles

Our team discussed the project's tasks and responsibilities, ensuring agreement on roles. The below is the information about how we took roles for each other.

Name			Role/Responsibilities		
AMEYA KAWADE			My Courses Page & UI Design		
MANTHAN MARATHE			Messages Page & Testing		
PRAMOD VAIDYA			Resources Page & Analysis		
RUSHIKESH MADDEWAD			Assignments Page & UI Design		
SHRINIWAS KORE			Supports Page & Testing		
OM KADAM			Home Page & Testing		
SANSKAR UBALE			Profile Page & Deployment		

# UI Design →

We brainstormed the ideas for UI then we ensured that we can translate the requirements into the design in a creative way.

# Testing & Deployment

We Performed the initially unit testing while creating pages individually, then integrated testing manually.

We use Vercel and Github to deploy the project live on internet.

Tool Used :

Vercel

Github

THANK YOU!
