Student Name	Enrollment Number
AMEYA KAWADE	2200560112
MANTHAN MARATHE	2200560091
PRAMOD VAIDYA	2200560066
RUSHIKESH MADDEWAD	2200560119
SHRINIWAS KORE	2200560129
OM KADAM	2200560126
SANSKAR UBALE	2200560128

Training Overview

During our intensive 6-week training program, we spent the initial 4 weeks spent learning web development skills. In the final 2 weeks, our team collaborated closely to analyze requirements and transform them into a fully functional product.

Learnings & Growth

- Technical Skills

HTML - Hyper Text Markup Language

CSS - Cascading Style Sheet

JavaScript - Client Side Scripting

- Soft Skills

Communication

Teamwork

Problem Solving

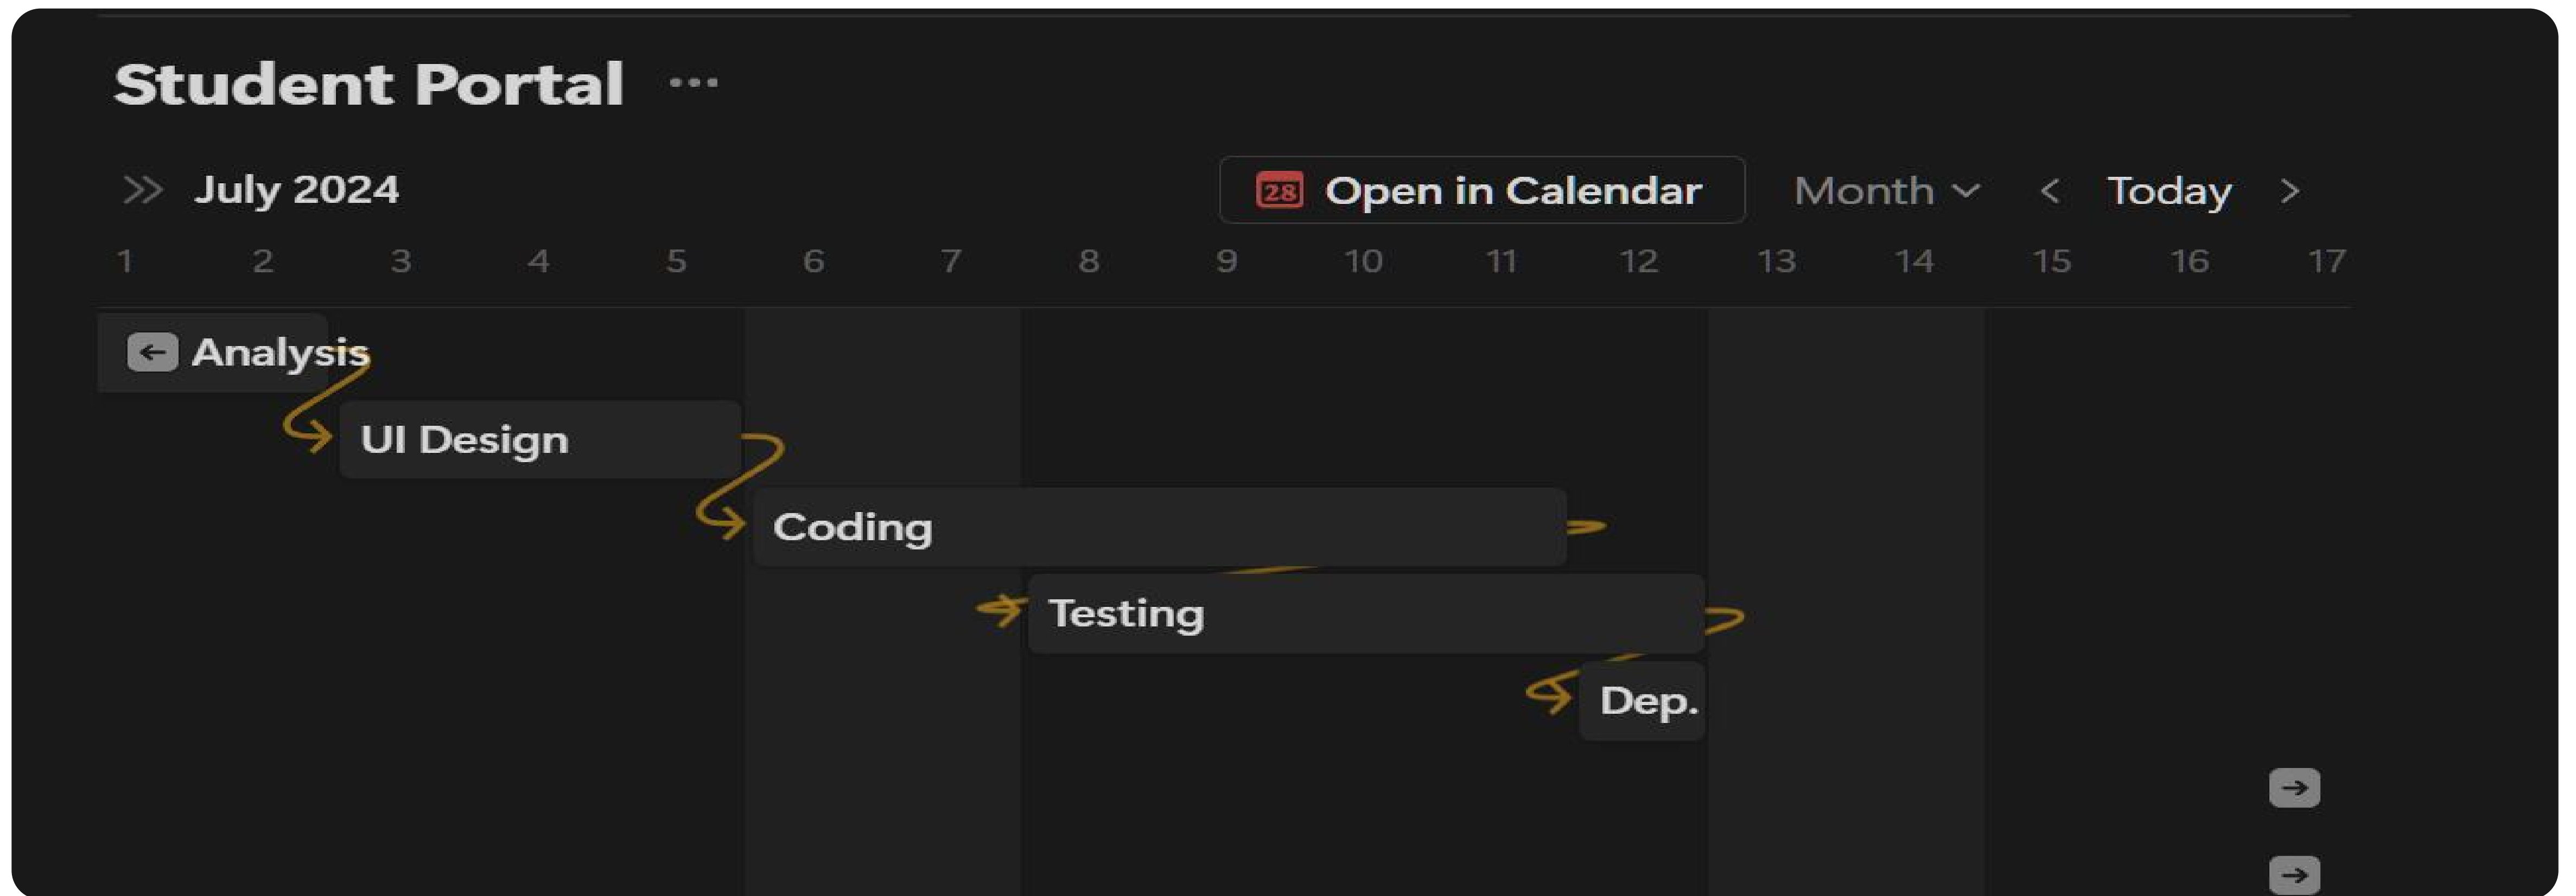

Our Project

Project Overview

Brief Summary →

A student portal includes a dashboard with home page displaying courses, deadlines & announcements. My courses page for courses, assignments page for submitting assignment, progress page for checking progress , profile & resources page, message & support page for technical help.

Deadline - July 12 , 2024

Project Phases

Overall The project was divided into 5 phases - Analysis of Requirements, UI Design, Coding & Testing , Deployment. The further slides contains the brief information about it.

Our roles

Our team discussed the project's tasks and responsibilities, ensuring agreement on roles. The below is the information about how we took roles for each other.

Name		Role/Responsibilities
AMEYA KAWADE	—————>	My Courses Page & UI Design
MANTHAN MARATHE	—————>	Messages Page & Testing
PRAMOD VAIDYA	—————>	Assignments Page & Analysis
RUSHIKESH MADDEWAD	—————>	Home Page & UI Design
SHRINIWAS KORE	—————>	Supports Page & Testing
OM KADAM	—————>	Resources Page & Testing
SANSKAR UBALE	—————>	Profile Page & Deployment

UI Design →

We brainstormed the ideas for UI then we ensured that we can translate the requirements into the design in a creative way.

Testing & Deployment

We Performed the initially unit testing while creating pages individually, then integrated testing manually.

We use Vercel and Github to deploy the project live on internet.

Tool Used :

Vercel

Github

THANK YOU!
